

# Why are we here tonight?

AI is here - shouldn't it be able to do all the work for us?

- Mildly early adopter of AI Vibe Coding
- Github Copilot, Bolt.new, Replit.com, ChatGPT+, Agentic AI
- Will AI take over my job? MAYBE...
- But we'll always need a human in the loop!
- Skills for survival:

<ul style="list-style-type: none"><li>• Prompt Engineering</li></ul>	<ul style="list-style-type: none"><li>• AI Supervision</li></ul>	Software/System Architecture Knowledge
DevSecOps	Site Reliability Engineering	Graphics Design / Product Design / Product Management

# **Since Nov. 30, 2022 - The day the world cracked**

## **...When ChatGPT was released**

- 359,776 jobs have been laid off\*
- AI/ML Data Scientists are now Product Managers?
- Whose responsibility is it to
- Microsoft 365 Copilot - Enterprise Prompt Engineer
- Booz Allen Internal Software Engineering x Design x AI Hackathon
