AI-Powered Approach

Which Gen AI Tools fit the purpose?

- bolt.new
- ChatGPT+
- ClaudeAI
- Github Copilot
- Cody
- Devin
- Cursor
- replit.com
- Ollama+ Open-Source
- Cohere
- And countless more...

But how do we fit this to what's already there?

- Learn existing code?
- AI enhancement to existing code?
- AI re-write of code?
- Where are all the API keys?
- What resources do you have to complete the effort?
