Skills/Specialties

- Javascript / Node.js

- React / NextJS / Vite

- Python / Java / PHP / Golang

- Postgres / MySQL / MongoDB / Varnish / Redis

- Docker / Kubernetes / Helm

- AWS / Azure / Digital Ocean

- Git, Github, GitLab, Bitbucket, SVN

- Atlassian - Jira / Confluence / Trello
  - (Not an expert, but I've worked with them long enough to know what they should and should never be used for.)

Why are we here tonight?

AI is here - shouldn't it be able to do all the work for us?

- Mildly early adopter of AI Vibe Coding

- Github Copilot, Bolt.new, Replit.com, ChatGPT+, Agentic AI

- Will AI take over my job? MAYBE…

- But we'll always need a human in the loop!

- Skills for survival:

• Prompt Engineering	• AI Supervision	Software/System Architecture Knowledge
DevSecOps	Site Reliability Engineering	Graphics Design / Product Design / Product Management
